

# Stressless® Emily

Stressless® Emily Steel Arm shown in Paloma Henna/Matte Black

## Available Modules:

- You will need 3.1" behind the sofa for the Stressless reclining function.
- Power operated headrests are standard on the Emily Corner unit (one on each side). Battery pack is optional; you need one battery pack for each module. The corner headrests are operated by two motors. You only need one transformer to power the two headrests.
- Cannot operate Power seats on both sides of the Emily Corner simultaneously. The footrests will collide if you do.
- Emily Center Module can be placed between any two modules. The Center Module, End Left Module and End Right Module cannot be setup as stand alone modules; they must be connected to a seat or corner. You cannot mount an armrest directly on the Corner Module or space modules.
- Emily End Modules can replace the armrest(s) on a sofa setup.

Available in over 50 leather colors combined with 8 wood finish choices.

Steel: Chrome

Steel: Matte Black
